b. **Definitions:**

(1) First Destination Transportation (**FDT**). This is transportation of DLA **DBOF** material from the contractor to the first point of use or storage:

(b) Contractor to CONUS port

(c) Contractor to CONUS customer

(2) Second Destination Transportation (**SDT**) for **DLA** DBOF material includes:

(a) **Shipment** from a distribution depot to the CONUS customer, to a Containerization Consolidation Point (**CCP**), or to a point for transshipment to another carrier for overseas shipment.

(b) OCONUS transportation that originates at a DLA Distribution Depot to an OCONUS port or breakbulk point.

(c) Vendor shipments from a CONUS port to an OCONUS port.

(d) Material returns from OCONUS when approved by the inventory manager. **DLA TACS** or transportation funds will not be cited on return shipments. Once the material is received by the depot and meets the criteria for the authorized return, the customer will be refunded the transportation.

2. **Nonsignificant TACS.** Shipping activities are not authorized to use the DLA nonsignificant TAC.

3. **TAC Construction for the majority of items managed and shipped by DLA.** TACS relative to the movement of DLA material are generally constructed as follows:

a. **First Character.** The alpha "S" is used to identify Defense Logistics Agency owned and/or sponsored material.

b. **Second Character.** The numeric "1" is used for revolving fund (DBOF) shipments. The numeric "3" is used for household goods. The numeric "4" is used for DRMS shipments. The numeric "5" is used for the movement of **non-DBOF** equipment and supplies.

For non-DBOF items, this **position** should indicate the fiscal year of the appropriation.
